

## Hoodie

An affordable, versatile integrated bag and deck.

The Hoodie is an integrated bag and deck solution for the Xtracycle\*. Affordable yet versatile, the Hoodie allows you to carry up to four grocery bags, two large messenger bags, and a passenger. With full rack coverage, and clean lines, the Hoodie is a simple and stylish entry-level Xtracycle cargo accessory. \*Does not fit Surly Big Dummy

**STEP 1** **Install Racks**

Install both racks into Xtracycle upright tubes. Note: the double bend goes into the back ports.

**STEP 2** **Install Hoodie**

Install Hoodie onto racks. Make sure the front pocket and logo are towards the front end of the bike and the silkscreen logo on the tail is in back.

### Weight Rating

Right Pocket: 35 lbs  
 Left Pocket: 35 lbs  
 Front Pocket: 10 lbs  
 Top Deck: 150 lbs\*

\*(see Step 5 for tensioning requirements)

### Warranty

Free from Manufacturers' Defects and Full Replacement for Damage Under Normal Use for 1-Year.

**STEP 3** **Secure Tail Strap**

Loop long strap behind horizontal bridge (A) and up the front into buckle, pulling snugly on the strap and working the Hoodie corners down to make a taut fit.

**STEP 4** **Secure Front Strap**

With the tail snug and secure, attach the front strap underneath the lower stay (B) of the frame by passing the strap end through the buckle and pulling snug. Pull down the Hoodie corners for a taut fit, you may need to retighten the strap.

**STEP 5** **Secure Side Straps**

Lift the side panels to find two velcro straps and buckle loops. Loop the strap behind and under the top stay, cinching tight and securing the velcro in place.

Repeat for other side. You may need to pull and re-cinch the front and rear straps to achieve even tension on the right and left sides. Even and firm tension will enable light weight passengers to ride atop the Hoodie.

**STEP 6** **Start Using It!**

Using your Hoodie is easy. Simply pull on the corner buckles (A) to loosen the strap, opening the side pouch. To close, pull on the strap loop (B) to secure your cargo.

Use the front pocket to store your U-lock or other items like a bike tire, tire levers, patch kit, etc.

Periodically check the snugness of all the frame straps and ride on!
